Authority, Legitimacy, and the Qawm: Historical Perspectives on Emergent Governance in Afghanistan (Paperback)

By U S Army Command and General Staff Coll, Major J Keller Durkin

Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This monograph fills a gap in contextual knowledge on Afghanistan needed to refine the U.S. strategic approach. It analyzes the emergence of governance in Afghanistan and examines the propensity of Afghans to respond to external authority and foreign intervention. It highlights findings in two areas -- Afghan identity and power structures. First, Afghanistan s population is poorly characterized in the reductionist analysis that is commonly applied. Each Afghan identifies with one or more qawms, a social organization or identity group. The term is poorly understood, but essential in understanding the complex dynamics of the disparate Afghan communities. Second, the current approach to establishing centralized governance opposes the traditional power and authority mechanisms. The propensity of most of the qawms is to resist perceived illegitimate authority. Historically, the only strong central governments that succeed in Afghanistan have done so by co-opting a sufficient number of the qawms and gaining access to external resources, ranging from the plunder of neighbors to direct aid from foreign governments.

Reviews

This ebook can be well worth a go through, and far better than other. Sure, it can be enjoy, continue to an interesting and amazing literature. I am just delighted to tell you that this is the greatest book i have got study within my personal daily life and could be he very best publication for actually.

-- Miss Susana Windler DDS

This pdf is fantastic. It typically is not going to price too much. You will not truly feel monotony at at any time of your own time (that's what catalogs are for about if you request me).
