Helion Company, United Kingdom, 2017. Hardback. Condition: New. Language: English . Brand New Book. Fortress Salopia is the culmination of contributions from heritage and historic professionals, practising archaeologists and academic historians that explores the unique military past of the county of Shropshire from the prehistoric period to the 20th century. Shropshire is one of the most characteristic counties of the Welsh Marches and occupies a strategic position between England and Wales. Consequently, the county boasts the highest numbers of Iron Age hillforts in England and the greatest density of Motte Bailey castles. The archaeological remains that adorn the landscape are a prescient reminder that Shropshire was once a frontier battleground, although such reminders are often lost amongst the picturesque rural landscape that prevails today; however, Shropshire s military significance is not just confined to the prehistoric and medieval periods. Throughout the last 400 years, the county has maintained military associations and became a major centre of training and supply during both World Wars. Comprising seven chapters, Fortress Salopia explores a range of phenomenon throughout the past 2,000 years. Andy Wigley contextualises the origins of hillforts and their social context within the evolution of the wider landscapes around them; Paul Belford examines the significance of Offa s Dyke - the western boundary of the Kingdom of Mercia - large parts of which survive in Shropshire; Michael Fradley explores archaeological approaches to medieval castles and discusses avenues for future research and the potential impact of new technologies on the study of the castle in Shropshire; Rachael Abbiss considers the changing military landscape during the Georgian period - including preparations for war, socio-economic developments and the creation of new military structures; Tim Jenkins reflects on the contribution of the county to the training and supply demands imposed during the two World Wars and...
