# IEEE 802.15.4 Protocol Implementation on FPGA

By Bhat, Naagesh

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | IEEE 802.15.4 Protocol Implementation on FPGA | The IEEE 802.15.4 is a wireless standard introduced for low power, low cost wireless communication with moderate data rates. In the next few years, it is expected that Low Rate Wireless Personal Area Networks (LR-WPAN) will be used in a wide variety of embedded applications, including home automation, industrial sensing and control, environmental monitoring and sensing. Wireless Pan employs one of the two connection arrangements namely full mesh topology and partial mesh topology. One of the MAC schemes proposed is slotted Carrier Sense Multiple Access with Collision Avoidance (CSMA/CA), and this paper analyzes whether this scheme meets the design constraints of those low-power and low-cost sensor networks. | Format: Paperback | Language/Sprache: english | 80 pp.

Reviews

It in one of the best book. Better then never, though i am quite late in start reading this one. You wont feel monotony at at any moment of the time (that's what catalogues are for regarding in the event you check with me).
-- Dr. Kristin Dickens

Very useful to any or all group of folks. It really is rally interesting throgh reading through period of time. Once you begin to read the book, it is extremely difficult to leave it before concluding.
-- Mrs. Dorris Wintheiser
