## MARKETING RESEARCH DIRECTORY, VOL. 495: JANUARY 1963 (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Marketing Research Directory, Vol. 495: January 1963 Marketing Research in the Agricultural Marketing Service is directed toward increasing marketing efficiency by reducing product losses and costs through the development of practical answers to problems encountered in the handling, storage, and distribution of agricultural products from the farm through retail stores. Increased production and better utilization of farm products, technological advances in the marketing system, changing marketing and distribution patterns, shifts in population and industry, and waste and Spoilage in marketing channels call for reliable research results to make intelligent decisions in packing, storing, transporting, handling and grading, and selection of facilities, equipment, and work methods for the efficient marketing of agricultural products. Under the authority contained in the Agricultural Marketing Act of 1946, and other legislation, research methods are applied to the solution of marketing problems such as improving marketing practices; identifying, measuring and maintaining product quality; preventing losses from waste, spoilage and insect attack; and improving marketing equipment, facilities, and handling methods, thereby reducing costs. The research, involving active cooperation with the State Agricultural Experiment Stations, other Government agencies, and public and private firms, organizations and institutions, is designed to benefit agriculture, the marketing system which services agriculture, and consumers. Research is conducted at each stage of marketing, such as at assembly points and storage sites, in transportation, at terminals or central markets, and at wholesale and retail markets; and deals with physical operations, equipment and facilities in handling and biological and related problems associated with the evaluation, measurement, protection, maintenance, and improvement of product quality. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a...
